

# Business Remote Deposit

Simple, Fast and Efficient

Electronic deposits made right from your office.

## Improve operations and save money by depositing funds without leaving your desk.

Remote Deposit allows you to scan paper checks and deposit them electronically to your MetaBank checking or money market account, at any time and from multiple business locations.

- **Save Time** – Eliminate deposit preparation and travel time by making deposits from your office.
- **Reduce Expenses** – Spend less on postage, mileage or courier expenses with electronic deposits.
- **Manage Funds** – Expedite the receipt of funds with a faster process to post deposits, clear checks and receive returns.
- **Increase Security** – Process physical checks electronically with secure Online Banking. Enhance deposit accuracy by decreasing human error. In addition, reduce the chance of fraud and theft by limiting check exposure.
- **Access 24/7** – Deposit at your convenience. Funds are available next business day if received by the daily cutoff time.
- **Enhance Reporting** – Create reports or export data files to easily import into your accounting software.

We are here to help. MetaBank's business team will assist in installation of software and approved scanners, hold training sessions with your employees and support your staff as needed.

Let us show you how your bank can help your business succeed.
